

Security and data overview

How asasii maps handles sign-in, location history, road reports, business documents, the edit history and the rule that nothing goes to an outside service.

Sign-in

Method	A Malaysian phone number and a one-time code sent by asasii maps
Outside accounts	No Google, Apple or Facebook sign-in
Without an account	Search and directions work without signing in
Phone number	Never shown on reviews or edits

Location

Location history	Off unless the person turns it on
Trips	Used to route the person and then discarded
Recent searches	Kept for a period the person chooses
Permission	Asked with a plain reason: directions, and confirming reports nearby

Road reports and edits

Road reports	Always anonymous
Edits	The person chooses whether their name shows on edits
Community edits	Checked by our team before they count
History	Every change to the map kept with who made it, when and why

Business verification

Photo at the shop	Taken inside the app with GPS position and time stamped on it
Documents	Seen only by our review team and deleted after the check
Outside registries	No lookup in any outside registry
Halal certificates	Checked by our review team; the label comes off on the expiry date

Where the data goes

Keeper	Everything is stored by asasii maps only
Sharing	No location or trips shared with anyone
Outside services	Nothing is sent to an outside map, traffic, transit or sign-in service
PDPA	Personal data handled under the Personal Data Protection Act 2010

Your data

Download	A person can download their data
Delete	A person can delete their account

asasii maps is a product of idataraya Sdn Bhd (1263428-K), Kuala Lumpur. Built and run by idataraya on its own map data, with no outside service in the path. info@idataraya.com · maps.asasii.com
